Overview/Features

The Secure headband style hearing protectors offer great comfort and quality to all professional users. The slim profile design increases stability and reduces the risk of snagging in confined areas.

- 1
 - Protection level 1 for low to medium noise
 - Very slim and light weight
- 2
 - Protection level 2 for medium to high noise
 - Best choice for high frequency noise
- 3
 - Protection level 3 for high to very high noise
 - Best choice for low frequency noise

Noise Protection Level

Hellberg hearing protectors are divided into three noise protection levels, ranging from low to high noise protection. These are clearly indicated with bright safety colours for easy identification and selection.

Headband

Durable and non-conductive construction to be worn over-the-head. Features a soft replacable cushion that rests lightly on your head for comfortable use the entire working day.

Made of high quality plastic

Durable construction made from thermoplastics that withstand rough environments and variable temperatures without ever losing its clamping force and flexibility. This non-conductive construction makes it a perfect choice for working close to electrical sources.

Telescopic size adjustment

Smooth and easy size adjustment with one single adjustment point, eliminating any risk of tilting, for a tight and comfortable fit.

Replaceable cushions with "snap-in" system

Comfortable cushions with minimal sweat retention and soft foam filling increases comfort. The snap-in system enables regular replacement for a long-lasting and hygienic product with high performance.

Integration with face protection

The unique visor integration allows you to combine any of Hellberg's hearing protectors with face protection.

Accessories

Part no	Description
26046-914	Spare Headband Passives
99400-001	Hygiene Kit Secure 1 & 2
99401-001	Hygiene Kit Secure 3
99900-001	Fresh Sweat Absorber
