

CHOOSE THE RIGHT BAG FOR YOUR TAKE AWAY.

Tingstad has a large selection of bags for all types of take away; food packaging, sushi boxes, soup cups and pizza boxes are examples of molds that you can easily find a suitable bag for in our range. Here is a simple guide on how to find the right paper bag for your take away.

Step 1. Pizza or something else?

If you are looking for a bag for pizza boxes, we have specially adapted bags for just this, so-called "pizza bags", article number 203633.

However, if you are looking for bags for other types of take away, there are more bags to choose from (see guide below).

Step 2. Brown or white bag/paper?

Our take away bags are available in brown or white paper. No color is more environmentally friendly or durable than any other, so the choice can be made entirely on the basis of what you think is best for your business.

Step 3. Do the bag and packaging fit together?

All Tingstad's take away packaging has the dimensions stated in their product descriptions. The measurements are found when you click on the respective product and click on "READ MORE" (see pictures 1 and 2 below). In the same way you can find the dimensions of each bag (see pictures 3 and 4 below) and can thus easily determine whether the bag and packaging fits together.

HOT&COLD 650ML MATFÖRPACKNING

541231-1

Hot&Cold Matförpackning 650ml är tillverkad av förnyelsebar råvara. Matförpackningen som kommer i en naturfärgad nyans klarar varmhållning och går även att värma i mikrovågsugn. Tillverkad i bambu. Utmärkt för både varm och kall mat.

TIPS FROM TINGSTAD

Maximize the space in each bag!

Maximizing the space in each bag is a benefit for both the environment, the customer and your business. It's better for the environment because less material is consumed, the customer does not have to carry unnecessarily many bags and your business avoids buying more bags than necessary, which means a cost saving.

Below we give 10 tips on which bag is best suited for 10 of our bestsellers in take away packaging.

Article number	Description	Bag for 1 mold (article number)	Bag for 4 molds (article number)
